

**C. P. R. EXHIBIT
ATTRACTING
GREAT CROWDS**

Immense throngs of people visiting the great Empire Exhibition at Glasgow, Scotland have been acquiring a new idea of Canada's greatness and her numerous holiday and business possibilities by study of the attractive Canadian Pacific exhibit. In its exhibit the Canadian

Pacific Railway emphasizes its historic closeness with Scotland by means of two contrasting working dioramas—one, the brig "Jean," Clyde-built, arriving at Quebec in the year 1822, the other, the magnificent Empress of Britain, also Clyde built, in a similar setting of 1938.

The development and wide interest of the great company — now the world's greatest transportation system—are illustrated by numerous other models and pictures. First is a diorama of the Clyde, with one of the famous "Duckies" steamships

route to Canada. This is flanked by another diorama of a deck scene during one of the popular "Mont" cruises.

Banff, that celebrated resort in the Canadian Rockies, is represented by a giant 14-foot enlargement that fea-

tures its beautiful scenery, together with illuminated transparent pictures of semistreamlined locomotives and

The Royal York Hotel at Toronto (largest in the British Empire) has been chosen to represent the Comp

Canadian Pacific services to the Far East and to New Zealand and Australia also have their place.

The interests of the company in the colonization and development of Canada are shown not only by pictures but also by a fine exhibit of grains and mineral specimens. Freight ships, express and industrial develop-

Perhaps the most dramatic example of the world wide service which the Canadian Pacific provides is in the series of 18 electric clocks which tell the time at different points across

Who are the owners and what do they do?

Women, executors or trustees of estates, and retired people, comprise about 63 per cent. of the shareholders in one of Canada's banks, taken as an example.

There are 260 occupations presented among the shareholders. They include:

carpenters, shoemakers, clergymen, dairymen, dentists, doctors, drovers, druggists, farmers, fish-

miners, oil operators, plumbers, policemen, railway employees, ranchers, sailors, scalars, sheriffs, steamship, stand-

A bank is forbidden to engage in trade. It must not buy, sell, lease, or otherwise acquire or dispose of real estate, except in the ordinary course of business.

The average share-holding is

There is no concentration of ownership and power in the hands of any small group. These shareholders annually elect directors. There are 172 directors

ability; their own success has proved their judgment good; that judgment is always alert in safeguarding your money.

THE CHARTERED BANKS

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions, from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

MARCH OF TIME

Early century monks in their monasteries fostered the Brewing art. Commercial Brewers learned the lore . . . and in the "MARCH OF TIME" Alberta Brewers have inherited this rich legacy of skill. Today Alberta Beers are made as the finest Beer used to be made . . . following the same formulas . . . depending on "TIME" alone to assure that rich, full-bodied goodness so prevalent in every bottle of Alberta-made Beer.

Some people never hand in an item of news for publication, but if we happen to miss an item in which they are interested they are sure to hand us a north pole star that would freeze the liver of a polar bear.

Town & District

Born to Mr. and Mrs. Jack Wilson, a son on May 25th.

Born to Mr. and Mrs. Clifford Thompson a son.

Born to Mr. and Mrs. Don Bond on Sunday, May 22, a son. Don is the happiest man in town these days.

Wm. Hill, Jr., arrived a week ago from California and is at present visiting his son William south of Arrowwood. Mr. Hill was in town today and said that the country looked splendid as a result of the recent rains. He expects to leave for Vancouver in a short time to visit.

Saturday was the hottest day of the season and it was surprising how many people complained of the heat. That evening another splendid shower fell. Late Sunday afternoon a cloudburst occurred north and west of town. So fast did the rain come down that some sloughs were filled in a few minutes.

Painters spent the week end painting Geo. Allstate residence. George thinks he has the best looking house in town now.

All the babies arriving to happy parents of this district are boys. A lot of people are wondering "how come."

The Veterans are planning to hold a meeting in the Legion on March Sunday June 5th, to which the members are requested to bring their families also a lunch basket. If the weather is fine the veterans will adjourn to the river where a picnic will be held.

Mr. and Mrs. T. H. Beach expect to leave this week end for Regina where they will visit their son Pat for a few days. Pat, who is a member of the Mounted Police, has been quite ill lately but is now almost recovered. In a short time he expects to leave Regina for police duty elsewhere.

Domestic consumption of flax varies only slightly from a figure in the neighborhood of 2,500,000 bushels a year. Production in Canada has fallen consistently below this figure for the past seven years, reaching at all time low point in 1933 when only 965,000 bushels of flax were harvested in the three prairie provinces. This low point was almost reached again last year due primarily to the disastrous failure in the west, and production for the three prairie provinces was estimated a 617,000 bushels. During his year ended March 1938 Canada spent in other countries for the importation of vegetable oil, edible and otherwise, \$15,828,491. Included in this total is an amount of nearly two million dollars that was paid for such products as chinawood oil, perilla oil and linseed or flaxseed oil that were imported into Canada, largely from other countries that are our natural competitors in the grain growing trade. A good deal of this two million dollars is the money that would ordinarily be spent in western Canada, if and when the farmers produce a large crop of flaxseed.

OBITUARY

Miss Elizabeth Mary Cunningham of Arrowwood, died at her home late Friday afternoon at the age of 83 years following a brief illness. Miss Cunningham had lived in the Arrowwood district for many years and was well known there. The funeral took place Monday morning when mass was held at St. Victor's Church, Gleichen, by Rev. Fr. Hyatt after which interment was made in the Catholic cemetery beside her sister who died several years ago. Deceased is survived by many relatives in both Arrowwood and Gleichen districts, six of whom acted as pall bearers.

Miss A. M. LeDrew, member of the Canadian Legion, B.E.S.L., Gleichen and until recently matron of the Blackfoot Indian Hospital here, died suddenly on Monday, May 22nd at the Qu'Appelle Indian hospital, Fort Qu'Appelle, Sask. The funeral will take place at Regina on Thursday, May 25th. Miss LeDrew was well known in Gleichen and district. For many years she had been connected with the Indian health department. Before the Blackfoot hospital was built she made regular trips to Gleichen to inspect the reserve and shortly after the hospital was built was placed in charge. Deceased was a Great War nurse and was an ardent member of the Legion, taking great interest in its affairs, and very seldom if ever failed to attend a meeting or social functions of the local branch.

EATON'S

How Do "Little Savings" Finance Mortgage Loans?

Answer.—Every mortgage loan made by a Life Insurance company is made up of the savings of several policyholders.

Question.—What do these savings represent?

Answer.—They represent the money which thrifty men and women have invested in Life Insurance for the protection of themselves and their dependants.

Q.—What is the average policyholder's share in Life Insurance assets?

A.—Approximately \$571.

Q.—Then it would require most of the accumulated savings of six policyholders to make a mortgage loan of \$5,000?

A.—That is a fact.

Q.—How much Life Insurance money is invested in mortgages?

A.—More than \$382,000,000, in first mortgages on farm, town and city properties in Canada.

Q.—In whose interests are these investments made?

A.—In the interests of more than 3,500,000 Canadian policyholders, most of whom are in modest financial circumstances.

This is the seventh of a series of messages sponsored by Life Insurance Companies operating in Canada. The rights to appear in two weeks' time, will deal with Life Insurance as Canada's greatest co-operative business.

The Straight Line

The geometrical axiom that the straight line is the shortest distance between two points is equally true of advertising. Advertising offers the shortest route between seller and buyer.

Reading advertisements saves time. By reading the advertisements in your newspaper you learn of the things you want and need; you learn where they are for sale and for how much. The advertisements enable you to weigh and choose even before you lay down your paper.

Advertisements are money savers because they enable you to secure better quality for the money you invest. They enable your dollar to purchase its full value in merchandise. Advertisements will keep you posted on every development that affects you, your wife and children, your home and your business.

Read the advertisements. The time you spend in reading them represents time and money saved when you buy.

Everyone should read advertisements as he does the news
